

T·A·P[®] Crawl Space System

TAP[®] Crawl Space System featuring ComfortTherm[®] Fiberglass Insulation

Overview

Complimenting the TAP[®] Attic Capping Program is the TAP[®] Crawlspace Insulation System featuring ComfortTherm[®] poly-encapsulated fiberglass batts. It's the ideal product to rid a home of cold floors, reduce sound infiltration, and decrease your customer's energy costs.

Performance Features

- ComfortTherm[®] is not a food source for insects or rodents
- Mold-Resistant, does not support mold or mildew
- Formaldehyde-Free[™] - promotes better indoor air quality
- Poly-encapsulated - wrapped in plastic for cleaner, more comfortable installation with less itch, irritation, and dust
- Thermally Efficient - provides effective resistance to heat or cold transfer with a variety of R-values
- Acoustically Efficient - reduces sound transmission through floor systems
- Fire-Resistant and Noncombustible (see Specification Compliance)
- Controls Moisture - the plastic facing is a vapor retarder that resists water vapor transmission. In hot, humid areas, ComfortTherm[®] comes with a perforated plastic facing that does not act as a vapor-retarder.
- Noncorrosive - does not promote corrosion of pipes, wiring, or metal studs.
- Damage Resistant - ComfortTherm's[®] poly sheathing protects it in harsh underfloor environments.

Installation

ComfortTherm[®] batts cut easily with an ordinary utility knife and are sized to fit standard cavities. The batts are placed between joists and secured with wire hangers (tiger teeth) pressed between the floor joists and against the insulation. Once installed, ComfortTherm[®] should be in contact with the subfloor, leaving no gaps. The plastic facing of standard ComfortTherm[®] is a vapor retarder, and in colder climates, is placed toward the heated or conditioned side of the floor. In predominantly hot, humid climates, many codes make vapor-retarder use optional. ComfortTherm[®] with a non-vapor-retarder facing is available for these areas.

Packaging & Pricing

ComfortTherm[®] Insulation is available nationwide and comes in batts or rolls depending on R-value. It is compression-packed in plastic bags for savings in storage and freight costs. Available in LTL quantities (min 1 pallet - approximately 1,743 sq. ft.). For the best value, order a full truck load or a drop trailer (approximately 50,000 sq. ft.) delivered to your location!

Less itch for the installer

Easy to install with wire staves

T·A·P[®] Crawl Space System

TAP[®] Crawl Space System featuring ComfortTherm[®] Fiberglass Insulation

Product Description

ComfortTherm[®] crawl space fiberglass insulation is a preferred high permeability product, perforated top and bottom to help prevent moisture accumulation against sub-flooring in humid environments (drier climates will get non-perforated vapor retarder product). Each batt is wrapped in a poly film, totally encapsulated with only the ends exposed resulting in easier installation and very little itch or irritation. Additionally, ComfortTherm[®] is formaldehyde free! **Note:** ComfortTherm[®] is not a pest control insulation.

R-Values Available

R-19, 15" X 93" Batt,	36 Batts per bundle	1 Bundle = 348.72 sq. ft.	5 Bundles per Pallet	1,743.60 sq. ft.
R-19, 16" X 48" Batt,	72 Batts per bundle	1 Bundle = 384 sq. ft.	5 Bundles per Pallet	1,920 sq. ft.
R-19, 23" X 93" Batt,	36 Batts per bundle	1 Bundle = 534.72 sq. ft.	3 Bundles per Pallet	1,604.16 sq. ft.
R-19, 24" X 48" Batt,	72 Batts per bundle	1 Bundle = 576 sq. ft.	3 Bundles per pallet	1,728 sq. ft.
R-30, 16" X 48" Batt,	44 Batts per bundle	1 Bundle = 234.64 sq. ft.	5 Bundles per Pallet	1,173.20 sq. ft.
R-30, 24" X 48" Batt,	44 Batts per bundle	1 Bundle = 352 sq. ft.	3 Bundles per Pallet	1,056.00 sq. ft.

Freight Information

- Free shipping on half or full truck loads (lift gate not available)
- Drop trailers are available to keep on your site (freight and monthly trailer rent apply)
- LTL shipments in pallet quantities available (lift gate not available on orders over eight (8) pallets)
- Please allow four to seven business days for delivery
