

T·A·P® PEST CONTROL INSULATION

T·A·P® Attic System featuring T·A·P® Pest Control Insulation

Overview

Introducing the TAP® Attic Insulation System featuring Thermal Acoustical Pest Control (TAP®) cellulose insulation. An EPA registered (#89140-1) general use pesticide, TAP® insulation is the ideal product to decrease your customer's energy costs, reduce sound infiltration, and help rid a home of pests. Combining environmentally responsible borate-based pest control with cellulose insulation made from recycled paper is ideal for new & existing homes and buildings. TAP® outperforms traditional insulation in nearly every category.

Performance Features:

- EPA registered pesticide
- Thermally Efficient - provides year round energy savings with an R-value of 3.6 per inch
- Year-round energy savings
- Acoustically Efficient - reduces sound transmission
- Strong, sustainable profit margins
- Fire-Resistant and Noncombustible
- Controls Ants, Booklice, Centipedes, Cockroaches, Crickets, Darkling Beetles, Earwigs, Millipedes, Sowbugs, Silverfish, and Termites (including Formosan Termites)
- "Green" pest management product with 87% recycled content
- Limited, Lifetime Warranty
- World-class training & support available

Installation

TAP® is a "loose-fill," cellulose insulation, so it is installed by being blown into attics directly on top of existing insulation. It can also be installed in attics and walls of new homes with specialized blowing equipment. Check out our product store at www.TAPinsulation.com for a complete list of equipment and supplies.

Packaging, Delivery, and Pricing

TAP® Insulation is available nationwide, comes in 30 lb. bags, and is sold by the pallet (36 bags), by drop trailer, or full truck load. Please allow four to seven business days for delivery. Contact PCI at (770) 766-6050 for pricing and quantity-based discounts.

Training and Support

As a valued client of Pest Control Insulation, LLC, you receive complimentary access to the world-class TAP® online training, marketing, and resources library complete with everything needed to gain success with TAP® pest control insulation. Our dedicated team is also available via phone M-F 8:30 AM—5:00 PM ET to lend support.
