

T·A·P® VACUUM DEFENDER

Prolong the life of your insulation vacuum!

T·A·P®
PEST CONTROL
INSULATION

The TAP® Vacuum Defender is recommended for restoration work, and has been designed for removing potentially damaging debris from the insulation before it comes in contact with the vacuum fan blades. This innovative design reduces the wear and tear on the vacuum fan blades, engine, and the vacuum housing. The Vacuum Defender helps prolong the life of your vacuum.

Specifications

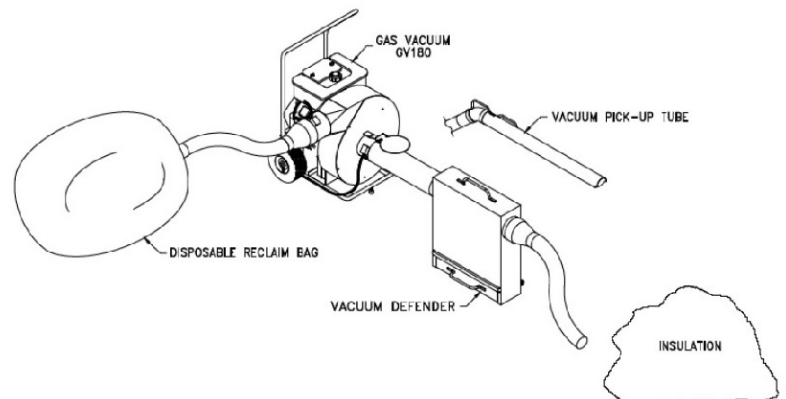

- Abrasion resistant (AR) deflector plate
- Quick and easy
- Design allows for debris emptying while vacuum is in use
- 6" inlet and outlet for maximum production
- Dimensions: 30" long x 8½" wide x 30" high
