White Vacuum Extraction Bag

Our white vacuum extraction bags are best when attached to the end of a short hose (5'-10') that has been affixed to the exit port of one of our high output vacuums. These bags are full-size, hold up to 75 cu. ft. of product and are the perfect item for your insulation removal or attic abatement job. Disposable.

Black, Tear-Guard Vacuum Extraction Bag

Our large, tear-resistant and disposable vacuum bag in black is the ultimate insulation vacuum bag! At almost twice the weight of our lighter bag, this one is nearly indestructible. These bags are full-size and hold up to 75 cu. ft. of product. Best when attached to the end of a short hose (5'-10') that has been affixed to the exit port of one of our high output vacuums.
