

KAIBOSH™ DISINFECTANT

Product Information

Disinfect, Clean, and Deodorize In One Step

KaiBosh™ is a concentrated no-rinse disinfectant cleaner that disinfects, cleans, and deodorizes in one labor-saving step. In today's current climate when public health is the focus, you want a product that protects your customers' environment. Its phosphate-free formulation effectively cleans, deodorizes, and disinfects areas of importance in controlling cross-contamination. It is a complete chemically balanced non-acid disinfectant/sanitizer that rinses freely, leaving behind no grit or soap scum. KaiBosh™ cleans, shines, deodorizes, and disinfects hard, non-porous, non-finished* surfaces and may be applied using KaiFly™ Cleaning System, spray bottles, low-pressure sprayers, and fogging systems.

"Killer" Cleaner

Designed as a one-step disinfectant cleaner, KaiBosh™ is effective against a broad spectrum of bacteria. It is virucidal (including Coronavirus COVID-19, HIV-1 (AIDS virus), Norwalk/Norovirus, Hepatitis B and C, and more) while inhibiting bacterial growth on moist surfaces. It also deodorizes by killing microorganisms that cause offensive odors. Able to cut through grease and grime, it doubles as an excellent cleaner that leaves bathrooms, kitchens, and other areas fresh smelling and free of contaminants.

Put the KaiBosh™ to It

Best for washable, hard, non-porous, non-finished* surfaces, KaiBosh™ addresses numerous applications such as toilets, porcelain tile and restroom fixtures, food contact surfaces, food preparation and storage areas, sinks, floors, walls, countertops, shower stalls, shower doors and curtains, bathtubs and glazed tiles, glass, metal, stainless steel, glazed porcelain, glazed ceramic, granite, marble, plastic (such as polystyrene or polypropylene), sealed limestone, sealed slate, sealed stone, sealed terra cotta, sealed terrazzo, chrome and vinyl, tables, chairs, waste receptacles, as well as many other hard, non-porous surfaces.

Highlights:

- EPA-Registered Disinfectant. Please follow the KaiBosh™ EPA Label (EPA Reg. #10324-93-71665) for each use.
- Protects against a wide variety of bacteria and viruses
- Excellent cleaner for restrooms, kitchens, and more
- Works in the KaiFly™ application system as well as spray bottles and numerous other applicators

*NOTE: KaiBosh™ is not compatible with finished surfaces. For a pH-neutral, finish-friendly disinfectant, KaiSan II is recommended.

KAIBOSH™ DISINFECTANT

Virucidal, Baterial, and Fungicidal Performance

T·A·P®
PEST CONTROL
INSULATION

Virucidal Performance:

***At 2 ounces per gallon use level (703 ppm active quat), this product was evaluated in the presence of 5% serum with a 10-minute contact time and found to be effective against the following viruses on hard, non-porous environmental surfaces:**

Avian influenza A H9N2/Turkey/Wisconsin virus

Avian Reovirus

Bovine Viral Diarrhea virus

Canine Distemper

Canine Coronavirus

Coronavirus (COVID-19)

Hepatitis B Virus (HBV)

Hepatitis C Virus (HCV)

Herpes Simplex Type 1

HIV-1 (AIDS Virus)

Human Coronavirus

Infectious Bronchitis Virus

Norwalk/Norovirus

Infectious Avian Laryngotracheitis

Infectious Bovine Rhinotracheitis virus (IBR)

Influenza A2/Japan virus

Newcastle disease virus Porcine Respiratory & Reproductive

Virus (PRRSV)

Porcine Rotavirus

Pseudorabies virus

Transmissible Gastroenteritis (TGE)

Vaccinia virus

***At 2.5 ounces per gallon use level, this product is found to be effective against the following viruses on hard, non-porous environmental surfaces in the presence of 5% serum with a 10 minute contact time:**

Canine Adenovirus

Canine Parainfluenza Virus

Feline Calicivirus

Feline Infectious Peritonitis

Feline leukemia virus

Feline Panleukopenia

Feline Picornavirus

Feline Rhinotracheitis

Infectious Canine Hepatitis Virus

Murine Parainfluenza virus type 1

Rabies virus

***At 8 ounces per gallon use level (or equivalent dilution), this product was evaluated in the presence of 5% serum with a 10-minute contact time and found to be effective against the following viruses on hard, non-porous environmental surfaces:**

Canine Parvovirus (CPV)

Minute virus of Mice (Parvovirus)

Porcine Parvovirus

Bacterial Performance:

***Add 2 ounces of this product to one gallon of water (703 ppm active quat). Treated surfaces must remain wet for 10 minutes. At this use level, this product is bactericidal according to the AOAC Use Dilution Test method on hard inanimate surfaces modified in the presence of 5% organic serum against:**

Campylobacter jejuni

Corynebacterium ammoniagenes

Enterobacter aerogenes

Enterococcus faecalis

Escherichia coli

Klebsiella pneumoniae

Listeria monocytogenes

Pseudomonas aeruginosa

Salmonella choleraesuis

Salmonella schottmuelleri

Salmonella typhi

Shigella dysenteriae

Staphylococcus aureus

Staphylococcus aureus (Methicillin resistant)

Streptococcus salivarius

Fungicidal Performance:

Aspergillus niger

Trichophyton mentagrophytes
